## xWinner Litepaper

*Blockchain at its most fun. Everyday, we develop projects so that our investors can earn more. We offer ease of transfer between wallets integrated with faucet and game platforms.*

### **WHAT IS XWINNER?**

- It is a self-regulating Blockchain – base currency that can be used in Stake & Faucet and entertainment areas.
  - Open Source Faucet and Gaming Platform.
  - It facilitates the sale of Digital Products via cryptocurrencies.
  - It produces open source, free and extensible earning systems.
- xWinner (XWNR) aims to create an open source staking program with BEP20(BSC) that includes faucet and entertainment platforms built on trust and reputation.

### **ECHOSYSTEM BLOCKCHAIN**

xWinner is a highly secure ecosystem where maximum security is our top priority. We use the popular BEP20(BSC) blockchain technology, which is highly secure with all modern blockchain security systems and allows other developers to join seamlessly and worry-free.

xWinner contributes to redefining the fundamental trends of current and future cryptocurrency to create positive changes in the way cryptocurrency is viewed and accepted over the next few years.

## **FEATURES**

*Completely Decentralized,*  
xWinner is a fully decentralized application with maximum security, no physical cash transaction and individual verification. All you need to trade on xWinner is just the xWinner (XWNR) wallet.

## **PEER TO PEER NETWORK**

xWinner is configured as a peer-to-peer network architecture above the Internet. Network nodes are interconnected in a network with a “flat” topology there is no server, central service and hierarchy within the network.

## **XWINNER TOKEN SALES**

xWinner is a high-security platform that puts users funds safety and security above all else.

As a total supply of xWinner, 7 Billion units have been created, 2 billion XWNR will be allocated in the ICO phase 2 billion XWNR in the Staking Program phase, 1 Billion xWinner will be locked by the Team for use in development and improvements, and 100 million xWinner Airdrops will be distributed.

## **REFERRAL EARNINGS**

The referral system of token sales will also be active. With your referral code in your xWinner account, you will be able to earn 10% of the amount received during the ICO(pre – sale program) of all users registered.

Thanks to the xWinner (XWNR), Stake and Faucet system, we will be releasing various awards that will take the world by storm, surrounding the xWinner concepts. The roadmap explains some of the things the xwinner team has planned for its users worldwide.

xWinner also has an affiliate program where users can sign up as members and earn bonuses on any of their referrals.

## **XWINNER STAKING – FAUCET & GAME**

We created new ways to earn xWinner PROOF and Stake and PROOF of Game. You can start earning XWNR by downloading our xWinner desktop application for PROOF of Game or by downloading the mobile version and playing games.

## **STAKE PROGRAM**

Staking programs will be launched immediately after the ICO process. For the first 5 months, you will earn 10% monthly on your XWNR balances that you have locked for staking.

After 5 months, it will continue as 5% per month. These gains will be provided by the 2 billion XWNR allocated for the Staking Program. The xWinner game and Blockchain platform will then be created by the xWinner community to have the opportunity to develop games and our platform for the mining process.

For each approved game, \$10.000 worth of xWinner(XWNR) will be awarded to the game developers as part of our bounty programs. Any game-approved mining process from XWNR will be used with the game. There will be a main tournament where the winner will receive \$100.000 worth of xWinner(XWNR) The master tournament will be held quarterly with xWinner registered members. We believe this will price xWinner(XWNR) well and result in more demand for xWinner Tokens.
